

METAL FRAMING TRUSS+ Shop Drawing Configuration

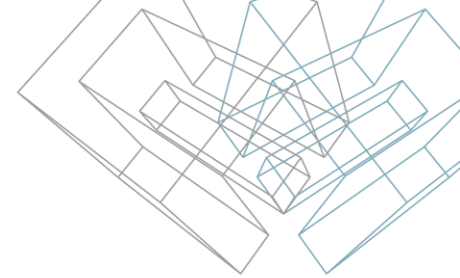

Shop Drawing Configuration

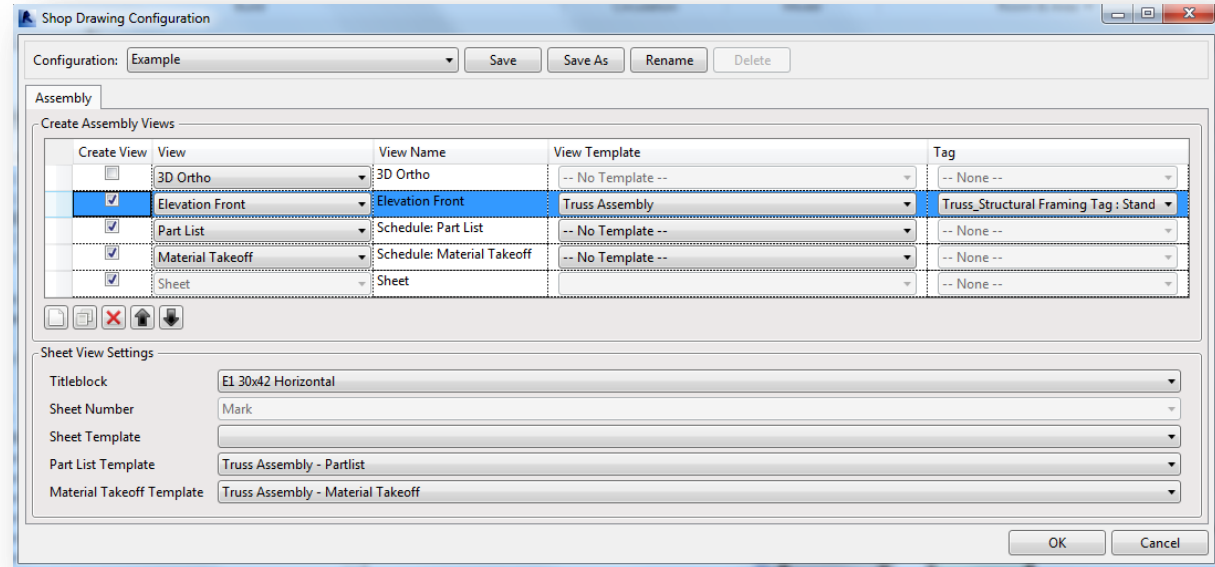

Run *Shop Drawing Configuration* function directly from “Truss+” menu.

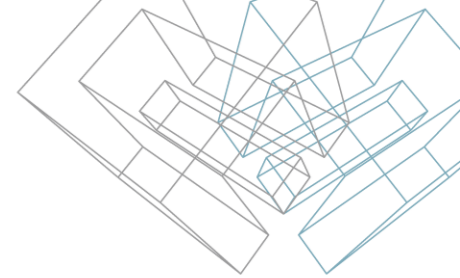

Shop Drawing Configuration

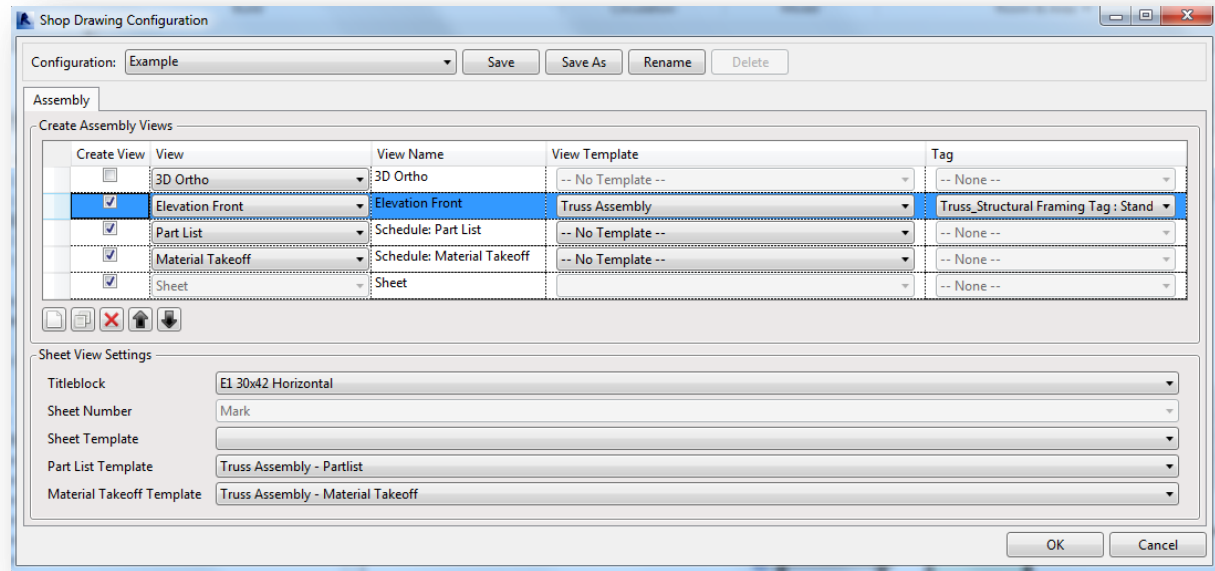

- **Shop Drawing Configuration** data can be saved, renamed or deleted.
- Select, add or modify Views that must be created for truss assembly.
- Select corresponding View Templates.

Shop Drawing Configuration

- Select tag type for tagging of truss members - structural framing elements.
- Select Title block, Part list and Material Takeoff templates.

Shop Drawing Configuration

- Sheet Template can be selected when the first assembly of truss is built and the sheet with truss views and schedules is ready.
